INFORMATION FOR THE BIDDER

1. GENERAL PROVISIONS

1.1. INTRODUCTION

The Department of Vermont Health Access (hereafter referred to as DVHA) invites the submission of proposals for telehealth pilot projects that improve care integration and coordination; increase individuals' access to and engagement in their care; expand system capacity; and achieve efficiencies in health care delivery. Proposed projects should be innovative, scalable, replicable, align with Vermont's State Innovation Model (SIM) grant purposes, and support the Triple Aim of better health, better care, and lower costs.

ELIGIBLE APPLICANTS

This opportunity is open broadly to proposals from Vermont-based organizations with the capacity and ability to perform the tasks outlined. Applicants may be not-for-profit, or for profit. Technology vendors are not eligible to apply. Preference will be given to proposals that pilot infrastructure, technology, coordination, and approaches beyond expansion of existing programs to a wider audience. Projects that only focus on upgrading existing equipment will not be considered.

1.7. FACSIMILE COMMUNICATION

You may use facsimile communication (FAX) for any communication required in this RFP - EXCEPT for your proposal and protest, if any. You may not send your proposal or protest by facsimile communication.

1.8. BID OPENING

The bid opening will be held on Friday, October 23, 2015 at 2:00 pm at 289 Hurricane Lane, Lower Level Conference Room B, Williston, VT 05495 and is open to the public. Typically, the State will open the bid, read the name and address of the bidder, and read the bid amount. Bid openings are open to members of the public. However no further information which pertains to the bid will be available at that time other than the bid amount, name and address of the bidder. The State reserves the right to limit the information disclosed at the bid opening to the name and address of the bidder when, in its sole discretion, it is determined that the nature, type, or size of the bid is such that the State cannot immediately (at the opening) establish that the bids are in compliance with the RFP. As such, there will be cases in which the bid amount will not be read at the bid opening. Bid results are a public record however, the bid results are exempt from disclosure to the public until the award has been made and the contract is executed with the apparently successful bidder.

1.9. PUBLIC RECORD

All bid proposals and submitted information connected to this RFP may be subject to disclosure under the State's access to public records law. The successful bidder's response will become part of the official contract file. Once the contract is finalized, material associated with its negotiation is a matter of public record except for those materials that are specifically exempted under the law. One such exemption is material that constitutes trade secret, proprietary, or confidential information. If the response includes material that is considered by the bidder to be proprietary and confidential under 1 V.S.A., Ch. 5 Sec. 317, the bidder shall clearly designate the material as such prior to bid submission. The bidder must identify each page or section of the response that it believes is proprietary and confidential and provide a written explanation relating to each marked portion to justify the denial of a public record request should the State receive such a request. The letter must address the proprietary or confidential nature of each marked section, provide the legal authority relied on, and explain the harm that would occur should the material be disclosed. Under no circumstances can the entire response or price information be marked confidential. Responses so marked may not be considered and will be returned to the bidder.

1.9.1. All proposals shall become the property of the State.

1.9.2. All public records of DVHA may be disclosed, except that submitted bid documents shall not be released until the Contractor and DVHA have executed the contract. At that time, the unsuccessful bidders may request a copy of their own score sheets as well as request to view the apparently successful bidder's proposal at DVHA Central Office. The name of any Vendor submitting a response shall

also be a matter of public record. Other persons or organizations may also make a request at that time or at a later date.

- 1.9.3.** Consistent with state law, DVHA will not disclose submitted bid documents or RFP records until execution of the contract(s). At that time, upon receipt of a public records request, information about the competitive procurement may be subject to disclosure. DVHA will review the submitted bids and related materials and consider whether those portions specifically marked by a bidder as falling within one of the exceptions of 1 V.S.A., Ch. 5 Sec. 317 are legally exempt. If in DVHA's judgment pages or sections marked as proprietary or confidential are not proprietary or confidential, DVHA will contact the bidder to provide the bidder with an opportunity to prevent the disclosure of those marked portions of its bid.

1.10. CONFLICTS OF INTEREST

A conflict of interest is a set of facts or circumstances in which either a Vendor or anyone acting on its behalf in connection with this procurement has past, present, or currently planned personal, professional, or financial interests or obligations that, in AHS' determination, would actually or apparently conflict or interfere with the Vendor's contractual obligations to AHS. A conflict of interest would include circumstances in which a Vendor's personal, professional or financial interests or obligations may directly or indirectly:

- 1.10.1.** Make it difficult or impossible to fulfill its contractual obligations to AHS in a manner that is consistent with the best interests of the State of Vermont;
- 1.10.2.** Impair, diminish, or interfere with that Vendor's ability to render impartial or objective assistance or advice to AHS; or
- 1.10.3.** Provide the Vendor with an unfair competitive advantage in future AHS procurements.

Neither the Vendor nor any other person or entity acting on its behalf, including but not limited to Subcontractors, employees, agents and representatives, may have a conflict of interest with respect to this procurement. Before submitting a proposal, a Vendor must certify that they do not have personal or business interests that present a conflict of interest with respect to the RFP and resulting contract. Additionally, if applicable, the Vendor must disclose all potential conflicts of interest. The Vendor must describe the measures it will take to ensure that there will be no actual conflict of interest and that its fairness, independence and objectivity will be maintained (see the Vendor Information and Disclosures form instructions in Template C). AHS will determine to what extent, if any, a potential conflict of interest can be mitigated and managed during the term of the contract. Failure to identify potential conflicts of interest may result in disqualification of a proposal or termination of the contract.

1.11. COSTS OF PROPOSAL PREPARATION

DVHA will not pay any bidder costs associated with preparing or presenting any proposal in response to this RFP.

1.12. RECEIPT OF INSUFFICIENT COMPETITIVE PROPOSALS

If DVHA receives one or fewer responsive proposals as a result of this RFP, DVHA reserves the right to select the proposal which best meets DVHA's needs. Furthermore, DVHA reserves the right to reject all proposals. Such a decision may or may not result in reissuance of the RFP. Should a bidder be selected as a result of this RFP, that bidder need not be the sole bidder but will be required to document their ability to meet the requirements identified in this RFP. DVHA reserves the right to obtain clarification or additional information

necessary to properly evaluate a proposal or any part thereof. Failure of a bidder to respond to a request for additional information or clarification could result in rejection of that bidder's proposal.

1.13. NON-RESPONSIVE PROPOSALS/WAIVER OF MINOR IRREGULARITIES

Read all instructions carefully. If you do not comply with any part of this RFP, DVHA may, at its sole option, reject your proposal as non-responsive. DVHA reserves the right to waive minor irregularities contained in any proposal.

1.14. RFP AMENDMENTS

DVHA reserves the right to amend this RFP. DVHA will post any RFP amendments to on the Electronic Bulletin Board (<http://www.vermontbidsystem.com>).

1.15. REJECTION RIGHTS

DVHA may, at any time and at its sole discretion and without penalty, reject any and all proposals in any 'catchment' area and issue no contract in that area as a result of this RFP. Furthermore a proposal may be rejected for one or more of the following reasons or for any other reason deemed to be in the best interest of the State:

1.15.1. The failure of the bidder to adhere to one or more provisions established in this RFP.

1.15.2. The failure of the bidder to submit required information in the format specified in this RFP.

1.15.3. The failure of the bidder to adhere to generally accepted ethical and professional principles during the RFP process.

Read all instructions carefully. If you do not comply with any part of this RFP, DVHA may, at its sole option, reject your proposal as non-responsive. DVHA reserves the right to waive any requirements contained in this RFP.

1.16. AUTHORITY TO BIND DVHA

The Commissioner and Deputy Commissioners of DVHA (in parent AHS Secretary or Deputy Secretary) are the only persons who may legally commit DVHA to any contract agreements.

2. PROPOSAL REVIEW

A review team of knowledgeable individuals will evaluate each proposal. The team members will represent both the service area and central office if appropriate. The review team shall review all proposals for compliance with RFP procedural instructions. If the procedural instructions are not followed, the proposal shall be considered non-responsive. Non-responsive proposals will be eliminated from further evaluation.

2.1. SCORING

For each program proposal, the four sections outlined in this section (Quality of Bidder Experience, Bidder Capacity, Technical Proposal and Program Costs) must be responded to in your proposal. The bidder should follow the structure provided in Chapter 3 of the RFP in their response. Proposals will be scored by individual team members. Scoring is intended to clarify strengths and weaknesses of proposals relative to one another and to provide guidance to decision-makers. Each category within the Criteria for Scoring is weighted proportionally; it is not a guarantee that the bidder providing the lowest cost estimate to the State will be selected as the Apparently Successful Bidder(s). The sum of the scores of the members will become the proposal's final score. (see criteria for scoring on the

2. Identification and Disclosure of Privacy and Security Offices. Business Associate and Subcontractors shall provide, within ten (10) days of the execution of this agreement, written notice to the Covered Entity's contract/grant manager the names and contact information of both the HIPAA Privacy Officer and HIPAA Security Officer. This information must be updated any time either of these contacts changes.

3. Permitted and Required Uses/Disclosures of PHI.

3.1 Except as limited in this Agreement, Business Associate may use or disclose PHI to perform Services, as specified in the underlying grant or contract with Covered Entity. The uses and disclosures of Business Associate are limited to the minimum necessary, to complete the tasks or to provide the services associated with the terms of the underlying agreement. Business Associate shall not use or disclose PHI in any manner that would constitute a violation of the Privacy Rule if used or disclosed by Covered Entity in that manner. Business Associate may not use or disclose PHI other than as permitted or required by this Agreement or as Required by Law.

3.2 Business Associate may make PHI available to its employees who need access to perform Services provided that Business Associate makes such employees aware of the use and disclosure restrictions in this Agreement and binds them to comply with such restrictions. Business Associate may only disclose PHI for the purposes authorized by this Agreement: (a) to its agents and Subcontractors in accordance with Sections 9 and 17 or, (b) as otherwise permitted by Section 3.

3.3 Business Associate shall be directly liable under HIPAA for impermissible uses and disclosures of the PHI it handles on behalf of Covered Entity, and for impermissible uses and disclosures, by Business Associate's Subcontractor(s), of the PHI that Business Associate handles on behalf of Covered Entity and that it passes on to Subcontractors.

4. Business Activities. Business Associate may use PHI received in its capacity as a Business Associate to Covered Entity if necessary for Business Associate's proper management and administration or to carry out its legal responsibilities. Business Associate may disclose PHI received in its capacity as Business Associate to Covered Entity for Business Associate's proper management and administration or to carry out its legal responsibilities if a disclosure is Required by Law or if Business Associate obtains reasonable written assurances via a written agreement from the person to whom the information is to be disclosed that the PHI shall remain confidential and be used or further disclosed only as Required by Law or for the purpose for which it was disclosed to the person, and the Agreement requires the person or entity to notify Business Associate, within two (2) business days (who in turn will notify Covered Entity within two (2) business days after receiving notice of a Breach as specified in Section 6.1), in writing of any Breach of Unsecured PHI of which it is aware. Uses and disclosures of PHI for the purposes identified in Section 3 must be of the minimum amount of PHI necessary to accomplish such purposes.

5. Safeguards. Business Associate, its Agent(s) and Subcontractor(s) shall implement and use appropriate safeguards to prevent the use or disclosure of PHI other than as provided for by this Agreement. With respect to any PHI that is maintained in or transmitted by electronic media, Business Associate or its Subcontractor(s) shall comply with 45 CFR sections 164.308 (administrative safeguards), 164.310 (physical safeguards), 164.312 (technical safeguards) and 164.316 (policies and procedures and

documentation requirements). Business Associate or its Agent(s) and Subcontractor(s) shall identify in writing upon request from Covered Entity all of the safeguards that it uses to prevent impermissible uses or disclosures of PHI.

6. Documenting and Reporting Breaches.

6.1 Business Associate shall report to Covered Entity any Breach of Unsecured PHI, including Breaches reported to it by a Subcontractor, as soon as it (or any of its employees or agents) becomes aware of any such Breach, and in no case later than two (2) business days after it (or any of its employees or agents) becomes aware of the Breach, except when a law enforcement official determines that a notification would impede a criminal investigation or cause damage to national security.

6.2 Business Associate shall provide Covered Entity with the names of the individuals whose Unsecured PHI has been, or is reasonably believed to have been, the subject of the Breach and any other available information that is required to be given to the affected individuals, as set forth in 45 CFR § 164.404(c), and, if requested by Covered Entity, information necessary for Covered Entity to investigate the impermissible use or disclosure. Business Associate shall continue to provide to Covered Entity information concerning the Breach as it becomes available to it. Business Associate shall require its Subcontractor(s) to agree to these same terms and conditions.

6.3 When Business Associate determines that an impermissible acquisition, use or disclosure of PHI by a member of its workforce is not a Breach, as that term is defined in 45 CFR § 164.402, and therefore does not necessitate notice to the impacted individual(s), it shall document its assessment of risk, conducted as set forth in 45 CFR § 402(2). When requested by Covered Entity, Business Associate shall make its risk assessments available to Covered Entity. It shall also provide Covered Entity with 1) the name of the person(s) making the assessment, 2) a brief summary of the facts, and 3) a brief statement of the reasons supporting the determination of low probability that the PHI had been compromised. When a breach is the responsibility of a member of its Subcontractor's workforce, Business Associate shall either 1) conduct its own risk assessment and draft a summary of the event and assessment or 2) require its Subcontractor to conduct the assessment and draft a summary of the event. In either case, Business Associate shall make these assessments and reports available to Covered Entity.

6.4 Business Associate shall require, by contract, a Subcontractor to report to Business Associate and Covered Entity any Breach of which the Subcontractor becomes aware, no later than two (2) business days after becomes aware of the Breach.

7. Mitigation and Corrective Action. Business Associate shall mitigate, to the extent practicable, any harmful effect that is known to it of an impermissible use or disclosure of PHI, even if the impermissible use or disclosure does not constitute a Breach. Business Associate shall draft and carry out a plan of corrective action to address any incident of impermissible use or disclosure of PHI. If requested by Covered Entity, Business Associate shall make its mitigation and corrective action plans available to Covered Entity. Business Associate shall require a Subcontractor to agree to these same terms and conditions.

8. Providing Notice of Breaches.

8.1 If Covered Entity determines that an impermissible acquisition, access, use or disclosure of PHI for which one of Business Associate's employees or agents was responsible constitutes a Breach as defined in 45 CFR § 164.402, and if requested by Covered Entity, Business Associate shall provide notice to the individual(s) whose PHI has been the subject of the Breach. When requested to provide notice, Business Associate shall consult with Covered Entity about the timeliness, content and method of notice, and shall receive Covered Entity's approval concerning these elements. The cost of notice and related remedies shall be borne by Business Associate.

8.2 If Covered Entity or Business Associate determines that an impermissible acquisition, access, use or disclosure of PHI by a Subcontractor of Business Associate constitutes a Breach as defined in 45 CFR § 164.402, and if requested by Covered Entity or Business Associate, Subcontractor shall provide notice to the individual(s) whose PHI has been the subject of the Breach. When Covered Entity requests that Business Associate or its Subcontractor provide notice, Business Associate shall either 1) consult with Covered Entity about the specifics of the notice as set forth in section 8.1, above, or 2) require, by contract, its Subcontractor to consult with Covered Entity about the specifics of the notice as set forth in section 8.1

8.3 The notice to affected individuals shall be provided as soon as reasonably possible and in no case later than 60 calendar days after Business Associate reported the Breach to Covered Entity.

8.4 The notice to affected individuals shall be written in plain language and shall include, to the extent possible, 1) a brief description of what happened, 2) a description of the types of Unsecured PHI that were involved in the Breach, 3) any steps individuals can take to protect themselves from potential harm resulting from the Breach, 4) a brief description of what the Business Associate is doing to investigate the Breach, to mitigate harm to individuals and to protect against further Breaches, and 5) contact procedures for individuals to ask questions or obtain additional information, as set forth in 45 CFR § 164.404(c).

8.5 Business Associate shall notify individuals of Breaches as specified in 45 CFR § 164.404(d) (methods of individual notice). In addition, when a Breach involves more than 500 residents of Vermont, Business Associate shall, if requested by Covered Entity, notify prominent media outlets serving Vermont, following the requirements set forth in 45 CFR § 164.406.

9. Agreements with Subcontractors. Business Associate shall enter into a Business Associate Agreement with any Subcontractor to whom it provides PHI received from Covered Entity or created or received by Business Associate on behalf of Covered Entity in which the Subcontractor agrees to the same restrictions and conditions that apply through this Agreement to Business Associate with respect to such PHI. Business Associate must enter into this Business Associate Agreement before any use by or disclosure of PHI to such agent. The written agreement must identify Covered Entity as a direct and intended third party beneficiary with the right to enforce any breach of the agreement concerning the use or disclosure of PHI. Business Associate shall provide a copy of the Business Associate Agreement it enters into with a subcontractor to Covered Entity upon request. Business associate may not make any disclosure of PHI to any Subcontractor without prior written consent of Covered Entity.

10. Access to PHI. Business Associate shall provide access to PHI in a Designated Record Set to Covered Entity or as directed by Covered Entity to an Individual to meet the requirements under 45 CFR §

164.524. Business Associate shall provide such access in the time and manner reasonably designated by Covered Entity. Within three (3) business days, Business Associate shall forward to Covered Entity for handling any request for access to PHI that Business Associate directly receives from an Individual.

11. Amendment of PHI. Business Associate shall make any amendments to PHI in a Designated Record Set that Covered Entity directs or agrees to pursuant to 45 CFR § 164.526, whether at the request of Covered Entity or an Individual. Business Associate shall make such amendments in the time and manner reasonably designated by Covered Entity. Within three (3) business days, Business Associate shall forward to Covered Entity for handling any request for amendment to PHI that Business Associate directly receives from an Individual.

12. Accounting of Disclosures. Business Associate shall document disclosures of PHI and all information related to such disclosures as would be required for Covered Entity to respond to a request by an Individual for an accounting of disclosures of PHI in accordance with 45 CFR § 164.528. Business Associate shall provide such information to Covered Entity or as directed by Covered Entity to an Individual, to permit Covered Entity to respond to an accounting request. Business Associate shall provide such information in the time and manner reasonably designated by Covered Entity. Within three (3) business days, Business Associate shall forward to Covered Entity for handling any accounting request that Business Associate directly receives from an Individual.

13. Books and Records. Subject to the attorney-client and other applicable legal privileges, Business Associate shall make its internal practices, books, and records (including policies and procedures and PHI) relating to the use and disclosure of PHI received from Covered Entity or created or received by Business Associate on behalf of Covered Entity available to the Secretary in the time and manner designated by the Secretary. Business Associate shall make the same information available to Covered Entity, upon Covered Entity's request, in the time and manner reasonably designated by Covered Entity so that Covered Entity may determine whether Business Associate is in compliance with this Agreement.

14. Termination.

14.1 This Agreement commences on the Effective Date and shall remain in effect until terminated by Covered Entity or until all of the PHI provided by Covered Entity to Business Associate or created or received by Business Associate on behalf of Covered Entity is destroyed or returned to Covered Entity subject to Section 18.8.

14.2 If Business Associate breaches any material term of this Agreement, Covered Entity may either: (a) provide an opportunity for Business Associate to cure the breach and Covered Entity may terminate the contract or grant without liability or penalty if Business Associate does not cure the breach within the time specified by Covered Entity; or (b) immediately terminate the contract or grant without liability or penalty if Covered Entity believes that cure is not reasonably possible; or (c) if neither termination nor cure are feasible, Covered Entity shall report the breach to the Secretary. Covered Entity has the right to seek to cure any breach by Business Associate and this right, regardless of whether Covered Entity cures such breach, does not lessen any right or remedy available to Covered Entity at law, in equity, or under the contract or grant, nor does it lessen Business Associate's responsibility for such breach or its duty to cure such breach.

15. Return/Destruction of PHI.

15.1 Business Associate in connection with the expiration or termination of the contract or grant shall return or destroy, at the discretion of the Covered Entity, all PHI received from Covered Entity or created or received by Business Associate on behalf of Covered Entity pursuant to this contract or grant that Business Associate still maintains in any form or medium (including electronic) within thirty (30) days after such expiration or termination. Business Associate shall not retain any copies of the PHI. Business Associate shall certify in writing for Covered Entity (1) when all PHI has been returned or destroyed and (2) that Business Associate does not continue to maintain any PHI. Business Associate is to provide this certification during this thirty (30) day period.

15.2 Business Associate shall provide to Covered Entity notification of any conditions that Business Associate believes make the return or destruction of PHI infeasible. If Covered Entity agrees that return or destruction is infeasible, Business Associate shall extend the protections of this Agreement to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible for so long as Business Associate maintains such PHI. This shall also apply to all Agents and Subcontractors of Business Associate.

16. Penalties and Training. Business Associate understands that: (a) there may be civil or criminal penalties for misuse or misappropriation of PHI and (b) violations of this Agreement may result in notification by Covered Entity to law enforcement officials and regulatory, accreditation, and licensure organizations. If requested by Covered Entity, Business Associate shall participate in training regarding the use, confidentiality, and security of PHI.

17. Security Rule Obligations. The following provisions of this section apply to the extent that Business Associate creates, receives, maintains or transmits Electronic PHI on behalf of Covered Entity.

17.1 Business Associate shall implement and use administrative, physical, and technical safeguards in compliance with 45 CFR sections 164.308, 164.310, and 164.312 with respect to the Electronic PHI that it creates, receives, maintains or transmits on behalf of Covered Entity. Business Associate shall identify in writing upon request from Covered Entity all of the safeguards that it uses to protect such Electronic PHI.

17.2 Business Associate shall ensure that any Agent and Subcontractor to whom it provides Electronic PHI agrees in a written agreement to implement and use administrative, physical, and technical safeguards that reasonably and appropriately protect the Confidentiality, Integrity and Availability of the Electronic PHI. Business Associate must enter into this written agreement before any use or disclosure of Electronic PHI by such Agent or Subcontractor. The written agreement must identify Covered Entity as a direct and intended third party beneficiary with the right to enforce any breach of the agreement concerning the use or disclosure of Electronic PHI. Business Associate shall provide a copy of the written agreement to Covered Entity upon request. Business Associate may not make any disclosure of Electronic PHI to any Agent or Subcontractor without the prior written consent of Covered Entity.

17.3 Business Associate shall report in writing to Covered Entity any Security Incident pertaining to such Electronic PHI (whether involving Business Associate or an Agent or Subcontractor). Business Associate shall provide this written report as soon as it becomes aware of any such

Security Incident, and in no case later than two (2) business days after it becomes aware of the incident. Business Associate shall provide Covered Entity with the information necessary for Covered Entity to investigate any such Security Incident.

17.4 Business Associate shall comply with any reasonable policies and procedures Covered Entity implements to obtain compliance under the Security Rule.

18. Miscellaneous.

18.1 In the event of any conflict or inconsistency between the terms of this Agreement and the terms of the contract/grant, the terms of this Agreement shall govern with respect to its subject matter. Otherwise, the terms of the contract/grant continue in effect.

18.2 Business Associate shall cooperate with Covered Entity to amend this Agreement from time to time as is necessary for Covered Entity to comply with the Privacy Rule, the Security Rule, or any other standards promulgated under HIPAA.

18.3 Any ambiguity in this Agreement shall be resolved to permit Covered Entity to comply with the Privacy Rule, Security Rule, or any other standards promulgated under HIPAA.

18.4 In addition to applicable Vermont law, the parties shall rely on applicable federal law (e.g., HIPAA, the Privacy Rule and Security Rule, and the HIPAA omnibus final rule) in construing the meaning and effect of this Agreement.

18.5 As between Business Associate and Covered Entity, Covered Entity owns all PHI provided by Covered Entity to Business Associate or created or received by Business Associate on behalf of Covered Entity.

18.6 Business Associate shall abide by the terms and conditions of this Agreement with respect to all PHI it receives from Covered Entity or creates or receives on behalf of Covered Entity even if some of that information relates to specific services for which Business Associate may not be a "Business Associate" of Covered Entity under the Privacy Rule.

18.7 Business Associate is prohibited from directly or indirectly receiving any remuneration in exchange for an individual's PHI. Business Associate will refrain from marketing activities that would violate HIPAA, including specifically Section 13406 of the HITECH Act. Reports or data containing the PHI may not be sold without Agency's or the affected individual's written consent.

18.8 The provisions of this Agreement that by their terms encompass continuing rights or responsibilities shall survive the expiration or termination of this Agreement. For example: (a) the provisions of this Agreement shall continue to apply if Covered Entity determines that it would be infeasible for Business Associate to return or destroy PHI as provided in Section 14.2 and (b) the obligation of Business Associate to provide an accounting of disclosures as set forth in Section 11 survives the expiration or termination of this Agreement with respect to accounting requests, if any, made after such expiration or termination.

CHAPTER 3

TECHNICAL PROPOSAL/PROGRAM SPECIFICATIONS

1. **ATTACHMENT A SPECIFICATION OF WORK TO BE PERFORMED**

1.1. **Overview and Background**

Vermont's health reform reimbursement strategy is designed to reward providers for the value of care rather than the volume of services rendered as its multiple payers move to these alternative to fee-for-service payment approaches. In order to enable telehealth support for this transition, DVHA directed the formation of a Telehealth Steering Committee, reporting to the Health Information Exchange/Health Information Technology Work Group, to guide the development of a coordinated state-wide telehealth strategy that aligns with the state-wide reimbursement strategy and the subsequent funding of pilot projects to implement part of that strategy. The final Statewide Telehealth Strategy is available on the Vermont Health Care Innovation Project (VHCIP) website:

http://healthcareinnovation.vermont.gov/sites/hcinnovation/files/HIE/Telehealth_Strategy_Report_Final_9-16-15.pdf.

In this context, telehealth is defined as the HIPAA-compliant use of health information communicated from one site to another electronically to provide care and/or improve a person's health and well-being. As such, telehealth refers to a broad application of technologies to facilitate health care delivery and health management as well as improve access to care and patient health. In addition to telehealth technologies that are used for educational and administrative purposes, telehealth products and services include applications that collect and transmit patient information, clinical services that provide health care remotely through means such as secure video conferencing, and patient engagement tools such as remote monitoring devices.

Specific components and types of telehealth use that have been identified include:

- Interactive real time audio-visual technologies that can be used outside health system facilities, with an emphasis on interoperability of data and information;
- Store and forward technologies;
- Tele-monitoring, also known as remote monitoring, using devices that assess multiple physiological parameters; and
- Technologies that support tele-education through interactive case/problem presentations involving multiple participants.

DVHA seeks pilot projects that can address a variety of geographical areas, telehealth approaches and settings, and patient populations over a 12-month time period. We are specifically seeking organizations that can provide coordination of telehealth strategies that comport with Vermont's payment and delivery system reform goals. This RFP's primary purpose is to explore ways in which a coordinated and efficient telehealth system can support value-based care reimbursement throughout the state of Vermont. Successful proposals must demonstrate how they align with the health reform efforts currently being implemented as part of the SIM Grant process. As such they must describe how the project will coordinate its telehealth efforts with providers who are moving towards value based reimbursement and with other telehealth initiatives in order to leverage technology investment, align telehealth services at the provider level, monitor a consistent set of outcomes measures, and assure that any health data generated can be shared through the state's health information exchange.

Overall goals of these projects include:

- Coordinated telehealth programs and initiatives that align with the evolving landscape of value based reimbursement and can scale statewide;
- Better access to care and services and better care experiences for patients, especially those with higher risk of poor health outcomes;
- Better health outcomes; and
- Lower costs.

1.2. Scope of Work and Contractor Responsibilities:

I. Executive Summary

Provide a brief summary of the proposed project that includes the following

- A. The goals of the proposed project.
- B. The proposed project intervention.
- C. The proposed population that will be served.
- D. The actual users of the telehealth technology.
- E. How the proposed project aligns with Vermont's value based payment reform efforts.
- F. Why your organization is particularly qualified to conduct the project.

II. Project Tasks/Requirements

In order to expedite both the crafting of the pilot project proposals and DVHA's evaluation, we are presenting a series of requirements in outline format. Please complete all responses using this outline.

A. Project alignment with the elements of Vermont's statewide telehealth strategy. Please describe how the proposed pilot would align with the following telehealth strategy elements:

1. Coordination with other telehealth programs and projects across the state;
2. Migration to or use of cloud based or wireless technologies;
3. Support for Vermont's health and payment reform efforts and programs;
4. Informational support for statewide policy with respect to telehealth.

B. Project alignment with strategy principles. The Vermont Telehealth Strategy includes a set of principles to guide the development of the pilot projects. Please describe how the proposed pilot meets the intent of the following principles:

1. Patient-centeredness such that telehealth meets the needs of patients wherever and whenever the needs arise for care, health, and well-being;
2. Improved access to care where access may be limited by geography, service limitations, and personal limitations, including access for individuals with disabilities;

3. Measurable outcomes that will demonstrate improvements in patient engagement, quality of care, and costs;
4. Interoperability such that the clinical data generated through telehealth encounters can be exchanged and ingested by other types of health information technologies;
5. Alignment with currently active telehealth programs including but not limited to interactive audiovisual programs in support of teleconsultation with patients and between clinicians, any store and forward efforts currently underway, existing remote monitoring programs, and e-visits; and
6. Alignment with other statewide provider initiatives related to value based payment reform.

C. User engagement. There are a number of challenges that telehealth programs must face related to both provider and patient/consumer engagement. Please describe how you intend to meet the following challenges:

1. Recruiting primary care clinicians;
2. Recruiting specialty care clinicians;
3. Recruiting patients for whom the intervention is appropriate;
4. Ensuring products, services and systems will be accessible for people with disabilities, including providers, patients, and other system users, and will comply with accessibility standards for functional performance criteria, applications, video and multi-media, training, and testing (see also D.4, below, and Appendix A, Accessibility Standards for Telehealth Technology).
5. Identification of accepted guidelines for the use of telehealth and assurance that they are followed;
6. Incorporation of telehealth approaches into the workflow of busy clinicians;
7. Identification of organizations with whom partnering conserves resources in this area; and
8. Development of an incentive plan for clinicians who engage in telehealth in lieu of revenue generated by face to face encounters.

D. Procurement and implementation of scalable telehealth technology (if applicable). Depending on the scope of the proposed project, the bidder will leverage existing technology or procure new technology, and implement the telehealth technology where it is currently not in use or available. Please describe any proposed telehealth technology procurement and implementation:

1. Describe the type of technology that will support the pilot (e.g., stationary or cloud based interactive A-V, store and forward, remote monitoring, wearables, etc.);
2. Identify any technology in existing programs that will be used in the proposed pilot;
3. Describe how you intend to proceed with resource conservative procurement;
4. Describe how you will assure that the data generated by the technology used in the pilot can be shared/exchanged securely with other types of HIT such that it is as available as data generated from face-to-face encounters:
 - a. The system shall be able to establish an outbound interface to the VHIE to support identity matching.

- b. Once an outbound interface is established, the system shall be able to provide sufficient data to support identity matching including basic demographic data elements (please see Attachment X: HIE Connectivity Maturity Model).
 - c. The system shall be able to establish an inbound and outbound interface with the VHIE to support interoperable clinical health care data transfer.
 - d. The system shall be able to provide clinical, lab, and immunization data to the VHIE where applicable.
 5. Describe the extent to which the proposed technology is scalable across the state (and beyond); and
 6. Describe how you will ensure the technology is accessible to individuals with disabilities, including providers and patients (as applicable). See Appendix A, Accessibility Standards, for additional specifications.
- E. Project management.** Bidders must demonstrate the ability to manage the pilot project they are proposing with respect to available human resources and experience.
- F. Project evaluation.** Please describe the proposed pilot's evaluation plan.
- G. Sustainability and scalability.** Additional funding for your project may come from sources other than this award. If your funding is 100% dependent on this award, you will need to develop a plan for sustainability after the funding has ended. The plan must take into account how the project can scale across Vermont.

H. Contractor Requirements.

Contractors will be required to:

- Participate in periodic telephone and on-site meetings with DVHA representatives and other grantees, if applicable;
- Report quarterly on agreed upon indicators using a DVHA-developed template;
- Compile qualitative and quantitative project results for a final evaluation report, which will be publically available;
- Provide budget and spending reports at the request of DVHA; and
- Create a presentation on their project and present to the Vermont Health Care Innovation Project HIE/HIT Work Group, Steering Committee, and other VHCIP groups during the project period and following the close of the project period as requested.
